mysecurityevent

02.-04.06.2025 Zurich

Learnings, networking & emotions

Why you absolutely have to be there:

Career boost

The best jobs are not

advertised.

More visibility

More personal branding

Better marketing

Direct feedback

Your network is your net worth

Modern Pitch Night

Personal hotseats

Live Tech Tender

Advantadges

Training
First you grow personally, then professionally and finally financially. There is no shortcut shortcut except by winning the lottery.

Künstliche Intelligenz
Kann niemals den persönlichen Kontakt ersetzen. Jedoch gibt es viele Use Cases und neuste Technologie zu dem Thema.

Contacts
Emotional moments to establish contact Culinary accompaniment from 5* catering

Audience award
Opportunity to win a prize:
From the community for the community

Speaking sessions

Our presentations show the latest technologies and options for implementing more efficient information security. Full focus on implementation - our speakers ensure that their presentations are convincing through practical relevance and feasibility.

Case studies - duett sessions

Our cyber security use cases report how the most successful companies think, feel and implement information security. In the duet format, established solutions are presented from two different perspectives; there is no recording for these stories.

Networking

Parallel to the presentations, discussions with exhibitors take place. For this purpose, we qualify the challenges in advance of the event and bring together participants who have a common topic - both sides benefit.

User & tech hotseats

Direct contact with other participants in confidential one-on-one discussions - 5 conversation partners with 5 minutes each to exchange ideas. Tip: stand next to security experts who are unknown to you or from whom you would like to gain specific learnings.

Confidentiality

What happens at the mysecurityevent stays there: it is a LIVE event behind closed doors.

Whats the Pitch Night?

The "Pitch Night" on the evening before the mysecurityevent promises excitement: 1 minute is enough to present ideas, products or humorous contributions. Whether as a teaser, creative product presentation or satirical look at everyday life - the variety creates an inspiring atmosphere and offers the perfect opportunity to get to know potential talents and future employees and make valuable contacts.
Opportunities to get involved:
• **Looking for employees? Receive applications.**
• **The company has a great product? Increase visibility.**
• **Share something with the community? Here's the opportunity.**

08:30 — Check-In

Moderation - Peter Kosel - CEO

cyberunity

09:00

Daniel Walther
Group CISO

&

Wolfgang Schurr
Group CISO

Case: Cybersecurity recruiting OR artificial intelligence.
- Challenges & opportunities
- Technology & innovation
- Future prospects

09:35

Eduardo Geraldi
CISO

&

Florian Scharf
Lead Cyber-TPRM

Case: Cyber Third Party Risk Management
- Risk assessment & due diligence
- Contract management
- Monitoring & Verification

10:10 — User Hotseats

10:40

KnowBe4

Dr. Martin J. Krämer
Security Awareness Advocate

Lecture: Protection against AI-supported social engineering
- How cybercriminals are changing their strategy
- What this means for your business
- How you should prepare for it

11:05

WIZ

Eugen Hinz
Senior Solutions Engineer

Lecture: Safe AI innovation with AI-SPM - the CSPM for artificial intelligence
- New opportunities and risks through AI in the cloud
- AI-SPM as a key component of modern cloud security
- Effectively securing and accelerating AI innovations

11:30

Kay Ernst
Sales Manager

&

Claus Vaupel
Customer Engineer

Lecture: Microsegmentation for all
- No agents - nothing needs to be installed on the clients
- Automated - without armies of consultants
- Every connection MFA-able

11:55 — Tech Hotseats

13:00 — Lunch

14:00

immersive

Thomas Tack
Sales Director

Lecture: Cyber security crisis management
- Importance of preparation
- Coping and avoiding escalation
- Follow-up and improvement

14:25

Sunrise

Michael Büttler
Senior Director Solutions

&

CISCO

Roman Stefanov
Head of Cyber Security Sales

Lecture: More security, less complexity for your company
- SASE from a single source
- Security Service Edge: The transformative power for your IT and your company
- Security features – operated through a cloud-based dashboard

14:50

Ontinue

Yannick Horvat
Sales Engineer

Lecture: Agents, the right hand of the SOC analyst
- What are AI agents?
- How you benefit - increase efficiency, minimize risks.
- More security at less cost: discover how AI agents can not only optimize your cyber defence, but also your budget.

15:15

LINDAL

Ejona Preci
CISO

&

KUEHNE+NAGEL

Guilherme Santos
Security Architect

Case: AI Security: How AI is being a double edge sword
- How to protect AI Systems.
- How to implement AI Security Governance.

15:45 — Coffee break

16:10

RAPID7

Jonas Weyand
Senior Security Solutions Engineer

Lecture: The power of transparency: Minimizing attack surfaces with Rapid7
- Detection and elimination of Shadow IT
- Holistic attack surface reduction
- Avoiding isolated security strategies

16:35

Bitdefender

Christardt Berger
Senior Enterprise Account Executive

Lecture: Cybersecurity and digital sovereignty
- The SEK of cybersecurity
- Proactive security
- Intelligent infrastructure transparency

17:00

VAILLANT GROUP

Raphael Reiß
CISO

&

WAGO

David Kreft
CISO

Case: Next Generation Supplier Cyber Security
- Driverseat & Ownership: Who should drive the topic?
- End-to-end: What do I want to achieve?
- Yin & Yang: How do I review my service providers?

17:35

Vontobel

Oliver Wyler
CSO

&

SIX

Dennis Weiss
Head of Security

Case: Phishers Fritz fishes fresh fish
When CISOs throw out bait
- Importance of phishing tests
- Dealing with challenges
- Best practices for CISOs

18:05 — Audience Awards · Apero

Dinner · Awards

08:30 Check-In

Moderation - Milena Thalmann - CEO

09:00
Alexander Odenthal
GISO
&
Danny Scheinhardt
Head of Cloud Governance

Case: Cloud-Governance
- Dual-provider strategy
- Automation & acceptance
- Guided process & compliance

09:35
Gary Adams
Sales Engineering Leader

Lecture: Cyberattacks are here to stay. Are you?
- What's the buzz about cyber resiliency, and why does it matter in today's digital jungle?
- How fast can your business spring back after a cyber attack?

10:00
Jochen Koehler
VP Sales EMEA

Lecture: Fix What Matters
- Identify, Prioritize and Fix Software Risk
- Secure Software Development Lifecycle
- Application Security Posture Management

10:25 **Tech Hotseats**

10:50
Reinhard Zimmer
HPE Zerto Cyber Resilience Specialist
&
Katja Jossi
Solutions Architect

Lecture: The power of disaster recovery
- Ensuring business continuity
- Data backup and recovery
- Cyber Resilience Vault solution

11:15
Rolf Steinbrück
Senior Solutions Engineer

Lecture: Passwordless. Secure. Immediately ready: New paths in identity management
- Phishing-resistant protection from the first click - with pre-configured YubiKeys for a smooth, secure login experience

---

11:40
Sven Carlsen
Sales Engineer

Lecture: Data Security Strategies for a Gen AI World
- Understand risks and security challenges of AI.
- Focus on data security, data usage, and AI-SPM.
- Secure AI systems with data security platforms.

12:05 Lunch

13:30
Gianclaudio Moresi
CISO
&
Jürg Widmer
CISO

Case: Requirements for external service providers
- Procedure for checking the regular specifications

14:05
Corinna Klempt
Manager Human Risk
&
Nadine Bluhm
ISM

Cybersecurity Awareness Talk: Join in instead of just listening
- In their interactive presentation, Nadine Bluhm and Corinna Klempt will offer a choice of six exciting topics to talk about and share with the audience.

14:40
Matthias Glock
ISO
&
Michael Ruppe
Group CISO

Case: Best of OT-Cybersecurity in the last 12 months
- Cyberattacks on critical infrastructures and vulnerabilities in OT systems in the last 12 months.

Together we save the digital world.
